

WILD TARIFF PLAN
MAKES A BIG HOLEANOTHER BOND ISSUE THE
ONLY MOVE LEFT.

Senator Gorman in a speech favoring the income tax says the revenue is too small to pay expenses and \$100,000,000 in securities will have to be issued soon.

WASHINGTON, Jan. 14.—[Special].—Senator Gorman said this morning, in a speech favoring the income tax, that the revenue was not sufficient for this year or next and predicted that another bond issue would be necessary of one hundred million dollars. The probabilities are that the beginning of the week will see the introduction of still another currency bill in the senate. Senator Jones of Arkansas, who at the critical stage of the tariff legislation took the matter in hand and harmonized the conflicting elements, is the author of the new bill. There had been objections made to the bills prepared by Senators Vest and McPherson, on the ground, in the case of the Vest bill, that it leans too much toward silver; and in the case of the McPherson bill that it is too exclusively in the interest of bonds. Senator Jones realizes that silver and bonds are the two antagonizing elements in this question, and his effort has been to prepare a measure which will perhaps not be all that the friends of either cause would naturally demand, but will in the end secure the support of both elements. He has been in consultation with many of the leaders of both these contending elements in the senate, and it is understood his bill as outlined to them has received highly favorable endorsement from the representatives of all of the conflicting interests. It is also understood the terms of the bill are not unfamiliar to leaders in the house. Furthermore, it is probable that it has been brought to the attention of the proper authorities in the executive branch of the government.

The bill will first provide for the issuance of 2½ per cent bonds to the amount of \$500,000,000, which are to be paid in gold and are to be used for the purpose of meeting the current expenses of the government and the redemption of the United States and treasury notes. The bill will also provide for the issue of bank notes to take the place of the treasury notes in such a way as not to produce a contraction of the currency. Another provision is that the national banks shall be allowed to issue up to their par value and the tax on national bank circulation is fixed at one-fourth of 1 per cent.

In the interest of silver the bill provides for its unlimited coinage under the condition that the holder of silver bullion may take it to the mint and have it coined into silver dollars, the government retaining as a seigniorage the difference between the coinage value of the bullion and its market value on the day the bullion is taken to the mints. It also provides for the withdrawal from circulation of all greenbacks, treasury notes, and national bank notes below \$20 and the substitution of silver certificates in denominations of less than \$20, which are to be payable in silver. The bill contains provisions against either undue inflation or contraction.

INCOME TAX AND NICARAGUA BILL.

Two Subjects That Are Claiming the Attention of the Senate.

WASHINGTON, Jan. 14.—The prospect is that the time of the senate will be divided during the week between the discussion of the income tax, based on the urgent deficiency bill, and the continuation of the debate on the Nicaragua bill. Senator Cockrell, chairman of the committee on appropriations, is very hopeful of being able to dispose of the income tax question by the time the week shall be half gone, and if he should succeed in this Senator Morgan, who is in charge of the Nicaragua bill, thinks there will be no difficulty in securing a vote on the canal bill before the close of the week, thus leaving the way clear for the bankruptcy and territorial admission and other bills as well as the other appropriation bill. Chairman Cockrell does not regard seriously the prospect of the prolonging of the income tax question. There will be several speeches which, while based on the deficiency bill, will be directed to the discussion of general financial questions. Senator Gorman will probably find opportunity to-day to make the speech which he had intended to make Saturday. So far as known there are only three more general speeches to be made on the Nicaragua bill, but it is probable that others will yet be announced. Senator Turpie will speak again on the bill, and Senators Vest and White have announced a desire to be heard before the vote shall be taken. Saturday will be given up to eulogies of the late Senator Vance.

To Plead To-Day for Debs.

WASHINGTON, Jan. 14.—Attorney Darrow expects to bring up the Debs case in the Supreme court to-day before the full bench of justices. The motion first made will be for a writ of habeas corpus. This, of course, will not be decided instantly, and the question of bail will depend on the date set for the hearing of arguments on the main issue. If the court decides to hear the case within a few days ap-

plication for bail will not be made. If a date several weeks ahead is set Mr. Darrow will at once demand the release of Debs and his associates on bonds. What the prisoners most fear is that the court may refuse bail, and at the same time delay a decision on the merits of the case for so long a time that the sentences of some or all may expire, and that thus the habeas corpus proceedings and the issues involved would not be decided.

Program in the House Not Definite.
WASHINGTON, Jan. 14.—There is no definite program for the house this week. There is a bare possibility that a new currency bill will be thrown into the arena of debate, but it is only possibility. To-day is District of Columbia day, and to-morrow the house probably will take up the consideration of the Indian appropriation bill, which was reported Saturday. The only appropriation bill (the most important of the bills not reported) before the Indian bill is disposed of the committee on rules probably will give the evening time to business from various committees. A day may be given in the consideration of the findings of the Court of Claims.

FIREMEN FROZEN WHILE AT WORK
Hard Work Fighting a Fire at Bradford, Pennsylvania

BRADFORD, Pa., Jan. 14.—Yesterday morning at 6:45 o'clock a fire was discovered in the Sheehan house, 99 Mechanic street, and the sleeping inmates had very narrow escapes from cremation. Two of the women, Mary Callahan and Mary Dorean, jumped from the second story windows in their night clothes and both sustained serious injuries. Although Miss Callahan's left wrist and ankle were both fractured in the terrible fall she dragged herself through the snow to a place of safety, almost perishing with cold on the way. The flames destroyed the house owned and occupied by Mrs. Mary Peterson and that lady and her two daughters saved none of their possessions but the clothes in which they escaped.

A furious blizzard was raging at the time and the thermometer stood at 8 degrees below zero. The Peterson, Sheehan, and Leonard buildings, fronting on Mechanic street, which were all wooden structures, burned like tinder and the flames rolled from them with fierce energy against the large brick block on the corner of Mechanic and Main streets, which was owned by M. A. Rosenberg. This structure was totally destroyed, as was the Nussbaum block, also a large building, and the Rothstein and Smith Bros.' building fronting on Main street. In the Smith building Mrs. J. F. McQuiston rushed from her rooms with her clothing and hair ablaze. The firemen saved her from cremation. Her husband was badly burned about the hands in working with the flames, and before the fire was extinguished had his hands and ears frozen. At least one hundred of the firemen had their ears, faces or hands frozen more or less severely. Robert Sisco and Robert Helme of the Citizens' Hose company are so badly frozen that their condition is critical. Ice fully an inch thick froze on the firemen's clothing, placing them in an armor that impeded their work materially. The total loss will be in the neighborhood of \$60,000.

OTHER FIRES OF YESTERDAY.

Ruinous Fire in a Nebraska Village—

\$100,000 Blaze at Barnesville, Ohio.
BARNESVILLE, Ohio, Jan. 14.—Habitat, a village on the Rock Island road, fifteen miles from here, was visited by a \$15,000 fire at 1 o'clock yesterday morning. Five buildings were burned. The heaviest losers are: H. M. Heplerlin, druggist, loss \$2,500; L. C. Schloss, dealer in general merchandise, loss \$8,000; the loss on buildings is \$3,000. Mrs. Brown, operating a hotel and boarding house, loses \$1,500; insurance not known. The fire was caused by a defective flue.

Machine Shops Guttered.

SOUTH MANCHESTER, Conn., Jan. 14.—The machine shops and engine room connected with Cheney Bros.' silk mill was gutted by fire early yesterday morning. Treasurer Cheney estimated the loss at from \$50,000 to \$75,000, which is covered by insurance. The origin of the fire is unknown. While assisting in the effort to subdue the blaze Gordon Dunn fell from a roof and sustained a fracture of the skull and thigh.

Fire at Barnesville, Ohio.

BARNESVILLE, Ohio, Jan. 14.—A fire yesterday caused a loss estimated at from \$75,000 to \$100,000. The fire is supposed to have started from a natural gas fire in the novelty store of M. T. Ward on Main street and quickly spread to the Enterprise printing office and adjoining business houses.

Cheese Factory Destroyed.

DEPREE, Wis., Jan. 14.—Fire destroyed the Day store building and contents and Meyer's cheese factory at Greenleaf, a village ten miles south of here, yesterday morning. The loss on the store and stock is \$8,000, partially insured. The loss on the cheese factory is \$20,000.

MARSEILLES, Jan. 14.—The French steamer Acanis, employed in the local trade, foundered three miles off Cape Caveau during a cyclone. Thirteen persons were drowned. The steamer Sentinel observed the disaster, and though it at once made for the spot it was too late to render any assistance.

THE BANK AND CITY

LIMA, Ohio, Jan. 14.—Yesterday morning about 3:30 o'clock the shock of a terrific explosion was felt here and caused great alarm at the hotels and all night places. Many were awakened. The officers at the Central police station felt the shock and heard the report, which resembled that of dynamite, and made a thorough examination of the different banks and big office buildings for safe blowers, but nothing unusual had happened. At the Lima house persons in the office made a rush for the outside.

Immediately after the shock inquiries from the Buckeye Pipe Line telegraph operators at Findlay, North Baltimore, Bowling Green, and other places in the North Lima field came to the general office here inquiring what glycerine factory had gone up, but no explosion of that kind had occurred here. The operator at North Baltimore reported having seen a flash of light in the heavens in the direction of Prairie Depot, where a large nitro-glycerine magazine is located. This was immediately preceding the shock and probably explains what happened. The shock was felt over an area covering at least 100 miles and caused great alarm.

St. JOSEPH, Mo., Jan. 14.—Pat Crowe the leader of the gang that held up the Burlington trains near this city a year ago and who broke jail here New Year's night, probably had a hand in the hold up of the Burlington train near Ottumwa Iowa, Saturday night. Some of the Burlington officials think so, and that the other bandit is James Evans, the murderer sentenced to be hanged for killing his father-in-law, and who escaped from jail with Crowe.

OTTUMWA, Iowa, Jan. 14.—Two boys playing about the river dam where the robbers who held up the Burlington train Saturday night jumped off found two packages of money yesterday lying on the ground. One contained \$25, the other \$1, and were done up in Adams Express envelopes. The seals had not been broken and the robbers evidently dropped them in their flight. This is the only clue secured to the bandits and nothing more definite has been given out as to the amount taken than to approximate it at \$7,000.

OHIO CITIES ARE SHAKEN UP
Quantity of Nitro-Glycerine Explodes and Makes a State Tremble.

FINDLAY, Ohio, Jan. 14.—A greater portion of northwestern Ohio was shaken up at 3 o'clock yesterday morning by the explosion of 500 quarts of nitro-glycerine in the storehouse of the Ohio and Indiana Torpedo company at Gibsonburg, a small oil station in Erie county. The shock of the explosion was distinctly felt in Findlay, thirty-seven miles distant. Many people went down town under the impression a gas explosion had taken place in the city. No information was received here until late in the day, when W. J. Morrison, manager of the company, received a telephone message from the scene of the disaster, stating that 500 quarts of explosives had let go, but as far as was then known no lives had been lost. The explosion was thought to be an earthquake at Upper Sandusky.

STORM IN ENGLAND.

Trains Are Delayed—Many Vessels Go Ashore in the Gale.

LONDON, Jan. 14.—A terrible gale, accompanied by a heavy snowfall, prevailed throughout the country Saturday night. The cold was intense. The snow drifts in some places were twelve feet deep. DOG BUTCHER FINED
FOR BRUTAL WORKMONROE MAN KILLED CANINES
FOR THEIR HIDES.

His Last Victim Was a Valuable Bull Dog and the Owner, Fred Hefty, Caused His Arrest and He Was Assessed Ten Dollars and Costs.

MONROE, Jan. 14.—Lou Layton's business ideas cost him \$10 and costs, and put a check on further operations. He figured in the police court as a slayer of dogs and dealer in dog hides, and had as his victims dogs that kill sheep together with worthless brutes that were given him, but it happened that he slew Fred Hefty's valuable bull pup, and then there was music. Hefty had him arrested and the court found Layton guilty.

It is stated that this is not the first dog Layton has killed that did not belong to him, but the greet enterprise no doubt has been wrecked.

BILL COOK CAPTURED.

Notorious Outlaw Taken Prisoner by Deputy Marshals.

FORT STANTON, N. M., Jan. 14.—Bill Cook, the notorious Oklahoma train robber, murderer and outlaw, was safely landed in the county jail at Roswell, N. M., yesterday and is heavily guarded. United States Marshal Hill of New Mexico has instructed Deputy Marshal Perry, who made the capture, to bring Cook to Socorro, N. M., on the Santa Fe road, from where he will be shipped east as soon as arrangements for his removal to the scene of his crimes can be perfected. Marshal Hill is in communication with the United States authorities of Oklahoma, Arkansas and Texas, in all of which states Cook is badly wanted. The rewards for his capture by railroads, express companies and state authorities aggregate \$15,000. He was taken by surprise and surrendered without a fight.

Indiana Legislative Program.

INDIANAPOLIS, Ind., Jan. 14.—There will be an interesting fight in the house to-day on the printing of the governor's message. Objections are made to it on the score of economy, but it is thought that the usual number will be printed. Another question of some interest that will receive early attention this week will be a proposition to look into the horse flesh industries at Hammond. It has been charged that not all the pickled horse steaks and dried meat products of these concerns is being sent to Belgium, as represented, but that much of it finds its way to the market in this state. A searching investigation will be made.

What Caused the Explosion.

FREMONT, Ohio, Jan. 14.—The nitro-glycerine explosion is supposed to have been caused by heat from a stove in the magazine used for thawing out the explosive. In Gibsonburg glass was broken and chimneys toppled over, and here houses swayed as though it had occurred in the heart of the city.

WASHINGTON, Jan. 14.—Yesterday was the coldest of the winter here, the thermometer registering as low as 6 degrees above zero at an early hour in the morning. During the day the temperature was little above 10 degrees.

TAYLOR'S WHEREABOUTS.

Thought to Be Biding His Time to Make a Compromise Proposition.

PIERRE, S. D., Jan. 14.—The state officials are daily receiving telegrams from various parts of the country describing suspects held as possibly being Taylor, the defaulting state treasurer. They have not, however, found any of them who seem to be the right men. The theory generally entertained is that he is concealed near Chicago and is awaiting the proper opportunity to have his agent at Pierre make the state a proposition for a compromise granting him immunity. The officials have traced him to near his probable place of hiding, and they have satisfied themselves of the personality of the principal conspirators. Arrangements are being made to secure funds to carry on the state machinery. The state treasurer authorizes the statement that all warrants will be paid; that the report that the state would default on any of its obligations even for a time is absurd, and that he had enough money in sight to take care of all the state's needs. It is certain, however, the appropriations will be greatly cut.

Board of Arbitration for Illinois.

SPRINGFIELD, Ill., Jan. 14.—The statutory revision committee will make its report to the legislature some time during this week. The commission has been at work since the adjournment of the last general assembly, by which it was created and now has a good portion of its work in shape to receive the consideration of the lawmakers. A bill providing for a state board of arbitration, which is the outcome of the railroad strike of last summer in Chicago, will be presented in the house by Representative Jones of Cook this week.

PREACHER DEFIES ARREST.

Ex-Bandit Penrod of Vanceburg, Ky., Is Not Molested Either.

VANCEBURG, Ky., Jan. 14.—"I won't be arrested," said the Rev. Mr. Penrod, the "new light" preacher, who shot Engineer Slate last Wednesday night because he would not agree with him on the question of baptism. "But if the judge will let me know what my bond will be I'll come to Vanceburg and give myself up." Penrod still preaches and no officer has yet dared to molest him. He is an eloquent as well as a dangerous man and has many followers. Before he began to preach he was a desperado. He would come into the city, get drunk and go out firing revolvers in every direction.

Rio Grande do Sul advises state that there has been desultory fighting along the whole frontier, which keeps the residents in a state of alarm. The revolted have been defeated and have taken refuge in Uruguay."

Solving the Indian School Problem.

WASHINGTON, Jan. 14.—Representative Holman, chairman of the house committee on Indian affairs, has prepared a report to accompany the Indian appropriation bill. The secretary of the interior is authorized to make contracts for the education of Indian pupils in sectarian schools for the next fiscal year to an extent not exceeding 80 per cent of the amount so used last year, and each succeeding year the amount is to be reduced 20 per cent, so that at the end of five years all such contracts will cease. This plan does not include public schools with which the bureau has arrangements for the education of its Indian wards. The plan, says the report, is understood to have the approval of the secretary of the interior and the commissioner of Indian affairs.

PURE CITY POLITICS DEMANDED BY ALL

BETTER MUNICIPAL GOVERNMENT UNDER DEBATE.

Janesville Business Men Indorse a Law Making it a Penal Offense to Offer Money or Official Reward for Votes; Also for Civil Service Reform.

Municipal reform was the theme on which several Janesville men were interviewed by Sentinel representatives in Madison. Other interviews were secured here today and are published below. The first question concerns legislation in behalf of a pure politics act, making it a penal offense for candidates for municipal, state and county offices to offer money or official rewards for votes, or the procuring of votes and compelling political committees to account in detail, under oath, for the receipts and disbursements of funds contributed for campaign purposes. Local statements of opinion follow:

H. S. Sloan—I do not think this law would be operative. Its tendency would be to make perjurers of a majority of the candidates, or they would evade it by working through outside persons, as is the practice in New York.

J. Thoroughgood—I heartily endorse the project.

B. B. Eldredge—Legislation of this character is a necessity.

F. A. Pease—It is a move in the right direction.

H. S. Woodruff—It is a question requiring considerable thought, which I have not been able to give it.

H. C. Stearns—I think some kind of a law in that direction would be a good thing.

M. S. Prichard—I think it would be inoperative.

John M. Nelson—It would be a good thing.

I. C. Brownell—I don't know that it would improve matters.

S. B. Heddles—It is a question requiring more thought than I have been able to give it. I think, however, there is a chance to improve our political system.

A. E. Rich—They will get it down pretty fine, if they succeed with such a law.

In regard to extending the civil service system to all city departments these answers were given:

B. B. Eldredge: I fully concur in the two above projects of legislation.

H. S. Sloan: A much needed change in some cities.

F. A. Pease: It ought to be.

I. C. Brownell—I favor genuine civil service reform.

H. S. Woodruff—I have always favored civil service reform, and believe men should be appointed solely on account of their ability and fitness for the position.

Dr. C. L. Clark—The appointing power should be as near the people as possible. Is it an easy matter to influence a mayor or a common council, but in my opinion it is no easy matter to influence the people. In my opinion the people should appoint all officers, and the people should be held responsible. I do not believe in the centralization of power, either in the mayor or common council.

The third proposition was to make the council purely legislative, and concentrate executive responsibility in the hands of the mayor and heads of departments.

B. B. Eldredge said: "The enactment of laws on the lines proposed by 2 and 3 above will tend to more efficient and business-like administration of affairs and subserve all interests involved."

H. S. Sloan: The heads of departments are too apt to be inefficient or corrupt.

Rev. F. A. Pease: Grand move.

Dr. C. L. Clark—It might improve matters but such questions demand careful consideration before final action.

C. S. Jackman—I am in favor of such a policy, provided we have good executive officers.

J. P. Baker—My study of political economy is wholly on the line of the single tax problem, and I have not given any other question the slightest thought. However, it strikes me as a good thing in connection with the single land tax.

John M. Nelson—The scheme is one that should be given a fair trial.

I. C. Brownell—Will such a scheme benefit any one?

H. S. Woodruff—I think it would improve matters.

As to dividing the common council into an upper and a lower house Mr. Eldredge says: "Each ward in a city should have two aldermen, who should be residents of the ward, but one of the aldermen should be elected by the city at large."

I. C. Brownell—I am in favor of electing all the aldermen on a general city ticket.

H. S. Sloan—A council, elected on a general city ticket, I think, would be

a safer body to transact the city business.

M. S. Prichard—I am inclined to the opinion that all the aldermen should be elected on a general ticket.

H. S. Woodruff—I favor the election of aldermen on a city ticket.

H. C. Stearns—I think it would result in giving us a more careful council.

Dr. C. L. Clark—I don't know that I have any objections to such a scheme.

S. B. Heddles—I favor the election of aldermen on a general city ticket.

A. E. Rich—If it would improve matters, I would favor it.

C. S. Jackman—I would like to see such a scheme tried, especially the election of aldermen on a general ticket. I think it would be a good thing.

J. M. Nelson—I think it would be all right to try it. No harm could result.

HAVE A GOOD WORD FOR KELLY

New York "Trotter and Pacer" Says He Will Have a Strong Stable.

The "Trotter and Pacer" one of the standard turf publications of New York city has a pleasant word for John Kelly who has opened a public training stable at that city. The paper says:

"John Kelly has rented a number of stalls at Fleetwood; and will be prepared to receive horses for training soon after the first of the year. Mr. Kelly is a gentleman in the highest sense of the word, and as he has given three horses records below 2:00, a greater number than any other driver except Ed. Gedra, who has an equal number to his credit, no one can question his ability as a trainer. He will have a large and strong stable."

"It is currently reported that Mr. Kelly will train a number of horses for James Butler, the wealthy merchant of this city, at Fleetwood. Mr. Butler has a large and very choice collection of highly-bred young horses and colts at his farm near Tarrytown, and from these a select string should be easily selected."

ROSTER CASE COMES UP IN MARCH.

It Was Argued in the Supreme Court On Saturday.

The somewhat celebrated roster case which is now in the supreme court on an appeal was argued before that tribunal Saturday. It came up in the form of a stipulation and motion to assign cause for argument at the foot of the last assignment on the August calendar. This will bring the case on about the middle of March.

REV. M. J. WARD of Beloit, has been appointed state lecturer in the interests of the Catholic total abstinence union of Wisconsin.

COLT WENT THROUGH RAILROAD BRIDGE

BLOODED YOUNGSTER TRIES TREADING THE TIES.

One of the Hadden Scott & Mouat's Horses Breaks From His Trainer and Dashes Down the Track—At North Franklin Street the Trestle Stopped Him.

While a dozen men pried one of Hadden, Scott & Mouat's valuable colts out of the Franklin St. trestle this morning, C. M. & St. P. trains had to wait. The colt was led up near the Northwestern freight depot early in the forenoon to be accustomed to the cars. The morning trains on the St. Paul road began to pile in about 9 o'clock and the colt refused to stay. He broke his halter and started down the track at a full gallop. With his trotting blood up nothing but a switch engine on a down grade had any chance of catching him, and the switch engine wasn't handy. Pursued by his trainer and three or four railroad men the colt dashed by the passenger depots and instead of turning down Bluff street as was expected kept right on toward Milton. He would have been going yet had it not been for the bridges for he showed a knack of treading ties that would make Rusty Raggles green with envy. At Franklin street, however, he struck the bridge crossing the street, got part way across and went down with a thump. All four legs stuck down between the ties. It took nearly a quarter of an hour to lift him out with long poles and when the job was accomplished the colt walked away trembling and very weak. He sustained few injuries and this afternoon looked as adventurous as ever.

Scots to Celebrate Jan. 25.

The one hundred and thirty-sixth anniversary of the birthday of Robert Burns will be celebrated by the Rock County Caledonian, society, by a grand concert at the Light Infantry armory on Friday evening, January 25, at 7:30 o'clock sharp. The programme this year promises to be better than ever before, including as it does, such artists as Mrs. Florence Forbes of Milwaukee, the popular vocalist; W. A. McCormick, the champion whistler; Edwin L. Barker, sketch artist; Miss Helen S. MacLean, vocalist; Miss Maude Gordon, the famous Scotch dancer and others. Rev. E. H. Pence of the Presbyterian church, will deliver the address on Burns, and S. B. Smith will deliver a short address. The concert will conclude with a dance with music by Smith's full orchestra.

Stockholders' Meeting.

The stockholders of the Rock County National Bank of Janesville, Wisconsin, are hereby notified that the annual meeting for the election of directors and transaction of such other business to properly come before it, will be held at the banking house in Janesville, Wis., on Tuesday, January 15, 1895, from 10 o'clock a. m. to 3 o'clock p. m.

A. P. BURNHAM, Cashier.

We are pleased when a person buys some other brand of flour than the "Corner Stone" or "Jersey Lily" for ever afterwards they will buy one of the above two brands. If not satisfactory after a trial, return and get your money. Dunn Bros.

BRIEF LOCAL NOTES.

HANDSOME printed 100-piece dinner sets \$7.75 up. Wheelock's.

SEVENTY five or 100 men wanted tomorrow morning. People's Ice Co., H. Tall.

We are the only house in Janesville showing the new 1895 goods. Bort, Bailey & Co.

This is the season when you catch a cold. Cure it with Hale's Cough Cordial. Prentice & Evenson warrant it.

THE stock we are closing out at cost is all new, bought within the last six months and very desirable. The Hub.

EVERYBODY now uses Hudnut's perfumes. No imitation. The genuine can be had only at Prentice & Evenson's.

We have it all our own way now on the tea question. No others claim to have the genuine Monarch. Dunn Bros.

It is plain to see we need money when one reads the sacrifice prices we are making on high grade goods. Lloyd & Son.

PANDE face powder is the only powder that will not make the skin rough. Can only be had at Prentice & Evenson's.

Nor one line at cost, but every line, no difference whose make. This stock must be turned into cash within 60 days. Lloyd & Son.

We miss no sale on cloaks at this season of the year. No matter how unreasonable the offer, we usually make a sale. T. P. Burns.

THIRTY pieces of the 1895 production of printed India silks will not last long at 25 cents a yard. Better come early. Bort, Bailey & Co.

WELL! Did you notice the suits we are selling for \$7 and the overcoats for \$8? We publish the list again tonight, so you make sure. T. J. Ziegler.

We are making some stirring prices on all grades of underwear: for a little money you can keep warm in this cold weather. T. P. Burns.

It's no trouble to furnish your house now; the money one spends foolishly will easily pay for fine furniture at Kimball's either weekly or monthly.

COME and make your selection of anything we have in the house and save one-third. We must close out this stock by February 1. The Hub.

ONLY a small payment down, the balance to suit the purchaser, and prices the lowest is the way we are delivering furniture now-a-days. Frank Kimball.

OUR spot cash buying enables us to get first choice and prices that no other house can possibly get on long time. We ask no dating. Bort, Bailey & Co.

We are even cutting the price on cigars, smokers will find it to their advantage to come in and get some of those 10 cent straight we are selling for 3 for 25. Prentice & Evenson.

You may believe it or not, but you will never again be able to get a fine all wool suit and overcoat, the latest style for \$13. Will leave it to anybody if they are not worth \$26. T. J. Ziegler.

In looking over the advertisements of the Chicago merchants in the Sunday papers, one very distinct feature was that a not a house quoted silks as cheap as we are now selling them. Bort, Bailey & Co.

It isn't possible to get overcoats, nice all wool ones, any lower than \$6.00. No wholesale house can sell for that, but we want them out of the way before we invoice February 7. T. J. Ziegler.

COLD enough, yes, for winter ulsters, overcoats, suits, gloves, mittens, caps, underwear, overshirts. All can be bought at Weisend's clearing sale very cheap, one door east of Wisch's barber shop.

TEN dollars to ten cents that every pair of the celebrated Marzuff shoes are being sold at the actual factory cost by us. Big odds but you can afford to take almost any bets on a dead sure thing. Brown Bros. & Lincoln.

Be your own judge on clothing. We are offering a line of tailor made suits for \$7 that are models of the tailor's art. Every suit has been bought within the last 6 months and is the latest style, no old shop worn bankrupt stuff. T. J. Ziegler.

The prices we name in our advertisement will tell you if we want to dispose of furniture. They will also whisper in your ear that they are much lower than any ever quoted in Janesville. Frank D. Kimball.

It's the cash buyer that gets and names the low prices nowadays. Some merchants pay more for the same kinds of silks we have on sale today, than we sell retail for, then how can they compete with us. Bort, Bailey & Co.

Yes, this is cold weather, and to do justice to yourself, keep your ears warm, and to keep warm in general, you should go to Weisend's, 21 West Milwaukee street, and buy one of those ulsters he is now selling way below cost during his clearance sale.

The January supper will be given by the ladies of the Court Street Methodist church on Wednesday of this week, January 16, from 5:30 to 7 o'clock in the afternoon. The price of supper tickets will be the small sum of twenty cents. A hearty welcome is extended to all.

MR. BULLOCK, who manufactures the famous Bullock cream cheese, which the farmers decided at their convention in Milton last week, was the only pure cream cheese in the market, told us the other day that we handled twice as much of this cheese as any other house in the city. Dunn Bros.

TRIES TO GET \$1000 FOR LOSS OF LOVE

STRANGE NOTE GIVEN BY A CLINTON MAN.

Edwin Cornwell Holds A. B. Crozier's Promise to Pay One Thousand Dollars But Has Failed Up to this Time to Collect Any Money.

A wife's love was what A. B. Crozier meant when he wrote "for value received" in the \$1000 note he gave Edward Cornwell of Clinton.

Mr. and Mrs. Cornwell had disagreed.

Cornwell said Crozier was the cause. When a separation followed Cornwell prepared to sue Crozier for breaking up his home. A conference on the subject was held by the two men, however, and legal action was postponed. Instead of suing for indefinite damages Cornwell, who is proprietor of a Clinton hardware store, accepted a note for his injured feelings in the shape of a promissory note for \$1000 payable in two days.

Two days passed.

The note was still unpaid.

Thirty days.

Still Crozier held back.

Persuasion having been of no avail, stern measures were decided upon. Preparations were made for securing a judgment on the note and attaching the defendant's drugstore. Saturday it was found that Crozier had disappeared and that his brother was in possession of the store. Proceedings of numerous kinds are now expected. The plaintiff wants Crozier arrested and claims that the sale of the store was not legitimate. Mrs. Cornwell has gone to live with her parents and Clinton people are trying to steady their nerves enough to resume their ordinary vocations.

GLAD COL. CLARK IS IN LUCK.

Words of Commendation Spoken by Editor Watrous of Milwaukee.

If there is any one who is sorry that Colonel Clarence Clark has been awarded a good position in Janesville, he must be an odd combination of humanity. The colonel is a bright, energetic man. His experience in running a great daily paper taught him several important lessons. Success to him. Now, if he will keep out of politics, it will be better for him and the republican party. He is one of the shrewdest politicians in the state. There is more to him in a week than there is to fustian Joe Doe in a year.—Milwaukee Telegraph.

DELICIOUS SWEET CHOCOLATE.

Costly Souvenir Packages To Be Presented Each Lady Attending the Lecture.

The lecture on Thursday in Myers Grand opera house is purposely given in the afternoon to avoid a crowd. Nothing will be sold and there is no "scheme" attached to the work. These lectures are exclusively for housekeepers, to whom reserved seats and souvenirs are free. All will be under the personal direction of Mr. Elisha B. Worrell, of Boston, the best known and highest salary exponent of food subjects now before the public. Doors open at 1:30; commences at 2 o'clock.

WAUPUN prison holds 658 prisoners.

The snowfall was a Godsend to the lumbermen.

WAUSAU's fire department fought a blaze that cost \$12,000.

WHITEWATER people saw E. Bear & Son's dry goods store burn.

FOUR Marinette Chinamen attend the Baptist Sunday school.

The first brewing of a non-intoxicating beer was begun at Racine on Friday.

THE Racine Trades and Labor council has begun a boycott on the non-union barbers who cut prices.

F. M. Marzuff & Co. Shoes.

Blow, blow, thou wintry winds. Thou art not so unkind as man's ingratitude. We try to be grateful, but every tub must stand on its own bottom. We have a large stock of this popular line of ladies' fine shoes, and we are compelled to discontinue the sale of the goods. Our spring line is now being made, and to make room we will sell any and every shoe in our stock made by Marzuff & Co. at the factory cost. We will continue the sale until the last pair is sold.

BROWN BROS. & LINCOLN.

No "ifs" or "ands" about it. The planing mill is ours, we must be there Feb. 1, and we must sell the balance of the stock at 103 W. Milwaukee before that time. The Hub.

AMUSING TRIFLES.

"Did you get the office?" "No; didn't want it." "What were you running for then?" "Exercise."

"You little imp," said the father, "if I catch you risking injury in a football game I'll break every bone in your body!"

Maude—And the last thing that Henry did was to give me a kiss. Mabel—Indeed! I should think that is about the last thing he would do.

Florence—Helen says Mr. Small-cash loves the very ground she walks on. Harry—Jupiter! I guess so, it would bring a hundred thousand any day.

Grubb—I think your boy will become a very distinguished man if he lives long enough. "Yes! What do you think he will be distinguished for?" "Longevity."

Widow—Well, Mr. Brief, have you read the will? Brief—Yes; but I can't make anything out of it. Heirs—Let us have it patented. A will that a lawyer can't make anything out of is a blessing.

Friend—Why do you send your husband's clothes to a tailor, when all they need is a button? Mrs. Manio-fem—Well, the fact is my husband married so young that he never learned how to sew on buttons.

Dejected Youth—I would like to return this engagement ring I purchased here a few days ago. Jeweler—Didn't it suit the young lady? Dejected Youth—Yes; but another young man had already given her one just like it, and I would like to exchange it for a wedding present.

Little Girl—Mrs. Brown, ma wants to know if she can borrow a dozen of eggs. She wants to put 'em under a hen? Neighbor—So you've got a hen setting, have you? I didn't know you kept hens. Little Girl—No ma'am, we don't, but Mrs. Smith's going to lend us a hen that's going to set, and ma thought if you'd lend us some eggs we'd find the nest ourselves.

Hope Crushed to Earth
Will rise again in the bosom of a dyspeptic wise enough to substitute for the pseudonies, which have bamboozled him out of his belief in the possibility of cure, the real invigorant and stomachic, Hostetter's Stomach Bitters. The bilious, the nervous, the dyspeptic, the rheumatic alike derive speedy benefit from this helpful botanic medicine. Persons suffering from indigestion will gain no positive permanent good from the fiery unmedicated stimulants of commerce, too often used recklessly. The Bitters is immeasurably to be preferred to these as a tonic, since its pure basis is modified by the conjunction with it of vegetable ingredients of the highest remedial excellence. Malaria is prevented and remedied by it, and it infuses vigor into the weak and sickly. A wineglassful three times a day is the average dose.

"Yield Not to Misfortune."

I was afflicted with catarrh last autumn. During the month of October I could neither taste nor smell and could hear but little. Ely's Cream Balm cured it.—Marcus Geo. Shautz, Rahway, N. J.

I suffered from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do even that. Many acquaintances have used it with excellent results.—Oscar Ostrum, 45 Warren Ave., Chicago, Ill. Cream Balm is agreeable.

GHOSTS OF THE MAORIS.

They Scratch on Walls and Make Their Presence Known by Whistling.

The Maoris, it appears, have a rooted belief in ghosts, which they call "Kehuas," and in various manifestations from the spirit world. They do not profess to hear the raps by which Northern spiritualists suppose that the presence of spooks is manifested, from the reason that Maori houses, being of reeds, rushes or grass, raps would not be heard; but the ghosts ingeniously accommodate themselves to circumstances by scratching instead of rapping, which is, of course, very thoughtful of them. Maoris believe that ghosts speak in shrill, whistling voices, and a recent traveler states that for that reason the Maoris hate to hear any one whistle. The Kehua, according to native tradition, is generally found lying across a path, and to step over him is to die. If the traveler goes round by another path that leads to the place for which he is aiming he will find that the Kehua is on the new path before him. The one way to avoid disaster is to turn back and go home, or at least, to the place last left. A chief, described as "very intelligent," assured Mr. Tregear, who has lately been investigating Maori superstitions, that he saw the spirits of two of his uncles on each occasion before they died. His father, mother, brothers or sisters he did not see, and it is not stated why he supposed that his uncles specially desired to visit him in this fashion. The explanation of this and the rest probably is that the Maoris are a remarkably superstitious and imaginative people, who can make ghosts out of nothing—or nothing more substantial than dreams—as easily as an old Scotch wife of the last century.

Mrs. Nurich—I s'pose you have the best standard littry works suitable for a first-class library? Book Store Clerk—Certainly, ma'am. Mrs. Nurich, firmly, but with condescension—Send me up a dozen of each with the bill.

THIS DAY IN HISTORY

1640—Death of Dr. John Boyse, most noted among the translators of the Bible into English; born 1561.

1784—American congress ratified the Paris treaty of peace with Great Britain.

1858—Attempt of Orsini, Pierri, Rudio and Gomez to blow up the Emperor Louis Napoleon and the Empress Eugenie with bombs. The bombs, filled with detonating powder and armed with several percussion caps, were thrown under a carriage conveying the emperor and congress to the opera. The first bomb did not touch the carriage nor its occupants, the second overthrew one of the horses, and the third exploded underneath the vehicle, smashing parts of it in pieces, killing a horse and wounding the driver. The occupants of the coupe were unhurt.

Orsini, who led the plot, was an Italian patriot, incensed at Napoleon's conduct in sending French troops to suppress the movement for freedom of the party of "Young Italy." He was executed in March, 1858.

1802—Prince Albert Victor, duke of Clarence and Avondale, died in London; born 1844. Randolph Rogers, American sculptor, died in Rome; born 1825. Cardinal Henry Edward Manning, distinguished English prelate, died in London; born 1808.

1893—Revolution in Hawaii; Queen Liliuokalani deposed.

RANDOLPH ROGERS.

RIDING TWO HORSES.

The new editor of Harpers Weekly with sublime egotism, undertakes to advise the republican party and in the same breath, extols President Cleveland for his wonderful sagacity. In the latter he discovers the most comprehensive mind, and all of the ability that stands between the country and financial ruin. He speaks and the nation bows in deference. He acts and the treasury fills up at his bidding. Wonderful combination!

According to this theorist the republican party was successful because the stay at home democrats representing the balance of power, permitted the party to succeed, consequently the potent factor is entitled to recognition. The issue of green backs is denounced as a subterfuge and the direct cause of financial disturbance.

The Harpers have long been noted for trying to ride two horses at the same time, a feat that is popular nowhere but in the sawdust ring. The new man at the helm appears to be an adept at the business, and the great publishing house has certainly made no mistake in placing him in command.

CURRENCY LAW GOOD ENOUGH.

The currency system is not perfect, but it worked satisfactorily when the republicans were in power, and it is working well enough now so far as its legitimate purpose is concerned. It needs revision, unquestionably, to suit circumstances and to prolong the blessing of honest money; but it has nothing to do with the raising of revenue, and so it can not be made to supply the want of sufficient funds to defray the cost of carrying on the government, which was the true explanation of the continued depletion of the gold reserve, with the attendant necessary of selling bonds. Let the democrats go to work and put a stop to the accumulating deficit, and the reserve will cease to diminish. That is where the trouble lies, and that is the only place where an effective remedy can be applied.

Debs is improving his enforced leisure in jail by composing addresses to the American people to warn them that their liberties are at stake. He is trying hard to make himself out a martyr. People in general have very little interest in either him or his manifestoes. He has been brought into a certain prominence by the court proceedings against him; otherwise he would be only a reminiscence by this time.

The state bank bill is dead; for so much the business world may give thanks and take courage. That one, and in some respects the gravest, of the perils threatened by democratic incompetence and wrong-headedness will disturb trade no more this year.

Members of the house of representatives seem to realize at last the need of solid work. Only seven weeks of the session remain. During the first half of it little of importance has been accomplished.

The new legislature will have so much work to do which people need and demand, that wise assemblymen and senators will pay no attention to bosses.

BONDSMEN READY FOR A SETTLEMENT

MURPHY SHORTAGE OF \$6,000
MADE GOOD.

Divided Among Twenty Men Who
Will Contribute All the Way Up to
\$675—Residence Property Placed
In Their Hands as Security for the
Amount.

ALL of ex-Treasurer Michael Murphy's property was put in the hands of a trustee to-day for the benefit of his bondsmen, but a settlement with the council cannot be made tonight. The shortage of about \$6,000 is divided among twenty men. Some who were on the bond for but one term will pay only \$82. Those who were on the bond for the entire term will pay \$675 apiece. The property turned over to the bondsmen includes Mr. Murphy's Milwaukee avenue residence and the home and lots on North Hickory street. It is listed at considerably more than the ex-treasurer's obligation to the city, but could not be disposed of to advantage just now and will be held for the bondsmen's benefit. Mr. Murphy will rent the Milwaukee avenue property and occupy it until spring. He has an option on it, giving him the right to buy at any time within a year. C. L. Valentine has been made trustee, holding all the property. Several irregularities in the bonds were discovered today and settlements cannot be made tonight, as was expected, on this account.

Letter From Bernhard Stavenhagen to Wm. Knabe & Co.

[Translated from the German.]

NEW YORK, JAN. 5, 1895.—DEAR SIR:—It affords me special pleasure to express to you my great satisfaction with your instruments. The same fully justify the distinguished renown which they enjoy, and I can only concur in the verdict of Messrs. von Bulow and D'Albert, in emphasizing that the Knabe pianos, before all in regard to mellow and singing (gesangvollen) tone combined with power, respond to the highest demands. These qualities, united with a perfect mechanism, place "The Knabe Piano" at the head of the best American institutions, and I again beg to express my satisfaction that I have the use of the same for my entire American tour. With highest esteem Yours truly,

BERNHARDT STAVENHAGEN.

DR. BARROWS DEAD FROM A BRAIN CLOT

PARALYSIS ENDED HIS LIFE AT
NOON TODAY.

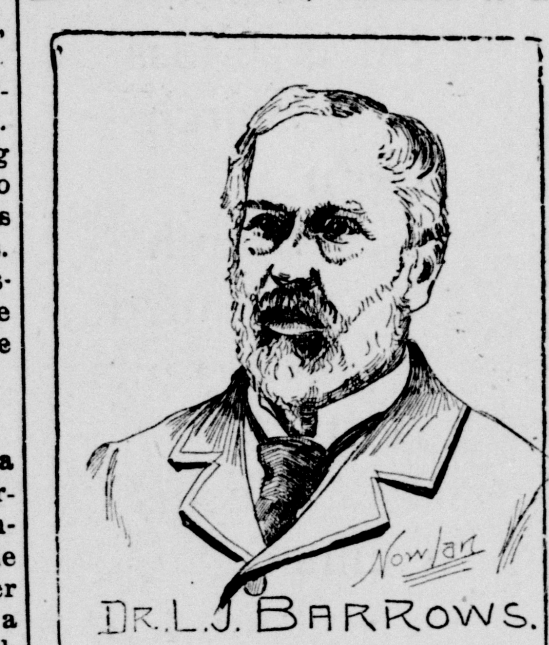

Suddenly Stricken Saturday Night—
His Son Arrived From Ironwood an
Hour Too Late—Clot On the Brain
Caused Partial Paralysis and Finally
Death.

With deep sorrow Janesville people will learn that Dr. Lyman J. Barrows has made his last professional visit in Janesville.

A stroke of paralysis Saturday night stretched him helpless on his bed; robbed him of the power of speech; and left him with his mental faculties so blunted that it is with difficulty that he could be made to understand anything.

Then death came and at noon his life went out.

Dr. Barrows was stricken Saturday night. So unexpected was the attack that it came like a bolt from a clear sky. He had been about town as usual Saturday afternoon, apparently in good health and spirits. The evening he was spending at his home on South Main street. While he was talking with Mrs. Barrows he went into the kitchen on an errand, and while there the stroke came. Mrs. Barrows and Mrs. Marshall, with whom Dr. and Mrs. Barrows lived, hastened to his

assistance, and the letter notified George W. Stearns, who hurriedly summoned Dr. Hugh Menzies. When Dr. Menzies arrived a few minutes later he found that the doctor was suffering from cerebral hemorrhage and that his whole right side was paralyzed. Dr. W. H. Palmer also arrived soon afterward and Dr. Barrows was made as comfortable as possible.

Little Chance For Recovery.

There was scant hope that Dr. Barrows would ever be able to get around again. When the blood vessel broke it caused a clot of blood to form on his brain.

When Dr. Menzies first saw him the stricken man was able to speak but with great difficulty and soon he lost all power to talk. He could understand, to a certain degree what was said to him and could answer by means of signs. A dispatch was at once sent to Frank L. Barrows at Ironwood, Mich., and he arrived today an hour after his father died. The train was delayed two hours, otherwise he would have been here on time.

Sunday many of the city physicians and other friends called on the doctor and he apparently recognized them. It will be with profound sorrow that Janesville people hear of his affliction. Dr. Barrows was a man widely known and one for whom everybody had a good word. He was possessed of an unusually sunny disposition and had a pleasant word for everyone. He had lived in Janesville for many years and stood high among his fellow men both as a man and a practitioner. To his wife and son sincere sympathy will be extended.

Had Lived Here 44 Years.

Dr. Barrows was born at Otsego, N. Y., and was nearly sixty-nine years of age. He graduated from the Williams college and the Buffalo Medical university. A short time before coming to Janesville he practiced in the New York insane asylum. In the year 1850 he came to Janesville and has been engaged in the practice of his profession ever since. From 1853 to 1858 he also ran a drug store. He has held the position of trustee of the state school for the blind; clerk of the board of education; a director in the First National bank and was for several years chairman of the inspecting committee of the Wisconsin hospital for the insane and in addition he had been secretary of the Oak Hill Cemetery association for forty years or more.

Joseph Daly.

Word came to Mrs. Anna Daly, 206 South River street, announcing the death of her step son Joseph Daly which sad event occurred at Kankana today. Mr. Daly was born and raised in Janesville although he had not lived here for some years, and at the time of his demise he was employed in the railroad shops at Kankana. The dispatch that told Mrs. Daly of his death was from his brother B. I. Daly, the former Janesville grocer. The remains will arrive in Janesville at 10:40 o'clock tonight and the funeral will be held tomorrow morning.

Brief funeral services of Abner Dolbee, who died Friday evening, were held at 7 o'clock this morning at the home of Miss Mary Kimball, 106 South Jackson street. Rev. A. Porter, of the First M. E. church, officiated. The remains were taken to Glendale, Michigan, for interment.

Mr. Dolbee was here visiting his sons, Elbert Dolbee, who is employed

in the shops of the Janesville Machine Co., and Myron Dolbee, who is employed by J. M. Bostwick & Sons, when he was taken sick with cerebral meningitis. He was about eighty years of age.

Mrs. O. L. James.
George W. Stearns received a sad message this morning, it being a letter telling him of the death of his sister, Mrs. O. L. James, her demise occurring at her home in Battle Creek, Michigan. Mrs. James formerly resided in Janesville and is well known to many of the older residents, who will be pained to hear of her death.

Mrs. Trondell.
Mrs. Alexander McNaughton is in Woodstock, called there by the death of her mother, Mrs. Trondell. Mrs. Trondell has been in very poor health throughout the summer and her death was not unexpected. Funeral services were held Sabbath afternoon.

George W. Franklin.
The remains of George W. Franklin were laid in Emerald Grove cemetery this afternoon under the auspices of Wisconsin Lodge of Odd Fellows. Funeral services were held at the home on Hyatt street at 1 o'clock, Rev. S. P. Wilder officiating.

FELL FROM A BRIDGE AND HIT ICE

Foreman Hugh Flannagan of the C. & N. W. Gang Badly Hurt.

Foreman Hugh Flannagan of Bridge Superintendent Crane's crew on the C. & N. W., fell off a bridge at Fort Atkinson Saturday. He broke one leg and sustained a bad scalp wound. The afternoon train took him to Fond du Lac for treatment.

GRAINS OF GOLD.

Those who are greedy of praise prove that they are poor in merit.

We are not so sensible of the greatest health as of the least sickness.

Be sure your ground is good—then be sure you maintain your ground.

A loving act does more good than a fiery exhortation. What mankind needs is not more good talkers, but more good Samaritans.

The praise of the envious is far less creditable than their censure, for they praise only that which they can surpass, and censure that which surpasses them.

Will Modify the Triple Alliance.

It is almost certain that the czar will meet both Emperor Francis Joseph and Emperor William.

Steel Workers to Organize.

HOMESTEAD, Pa., Jan. 14.—The meeting of the steel workers held here in the rink yesterday was attended by 350 workmen and business men. A motion was made to organize immediately, but it was finally decided to postpone any such action. The meeting then adjourned to meet again next Sunday. The sentiment was evidently in favor of an organization.

Vanderbilts Agree to Divorce.

NEW YORK, Jan. 14.—The general impression now is Mrs. W. K. Vanderbilt will not bring proceedings for a divorce and that she and her husband will be free to do as they please except in one particular: They must not marry again. Mrs. Vanderbilt is to receive \$3,000,000 in cash and an income of \$500,000 a year.

Empty the Passengers' Pockets.

LANDER, Wyo., Jan. 14.—The store of the Miobrara Stage company at Home Station, on the Sweet Water river, was entered last night by three masked robbers, who took \$25 in cash and a number of checks for different amounts. Passengers who had just alighted from the stage were stood in line and their pockets emptied.

NEW BANK FORMED WITH \$50,000 STOCK

LAPPIN BLOCK IS THE LOCATION CHOSEN.

In the Former Quarters of the Merchants & Mechanics the New Institution Will Be Found—Very Liberal Subscriptions Mark the First Day.

A new bank with \$50,000 capital is in process of organization. Subscription papers were opened Saturday and more than the amount of capital wanted was pledged before evening. The location of the new bank will be in what has been the J. W. Brown's cigar store. This was formerly occupied by the Merchants & Mechanics bank. The cigar store was bought out by Martin Curtis the other day simply to secure the place.

The list of subscribers has not yet been made public but it includes several who have been connected with other local banks. No organization has been effected, in fact no date has been set for a subscribers' meeting. "It will be some time before the articles of incorporation can be filed," said an interested party to-day. The stock is all taken, and even those whose names are on the list must be scaled down to reduce the amount.

DEADLIEST OF POISONS.

From an African Plant, an Atom of Which is Dangerous.

To the best of our knowledge the most deadly poison is that which was discovered by Professor Frazer, of Edinburgh, Scotland, and known as shophanthidin. He separated it from the African poison plant, shophanthus hispidus, by means of ether and alcohol. As little as a one-thousand-millionth part of an ounce of crystallized shophanthidin produces a distinctly injurious effect upon the heart, and a very small quantity is fatal. Another deadly poison is cyanogen gas, the principal ingredient of hydrocyanic or prussic acid. At ordinary temperatures it is simply a gas, but can be condensed by cold and pressure into a thin, colorless liquid and becomes a solid mass at 30 degrees Fahrenheit. The inhalation in its gaseous state of a most minute quantity would cause instant death. One of the most deadly poisons is arsenic, formed by decomposing an alloy of arsenic and zinc with sulphuric acid. It is a colorless gas, possessing a fetid odor of garlic, and acts as a most deadly poison. Adolph Ferdinand Gehlen, a chemist born about 1775 at Butow, in Pomerania, was the discoverer of it. While experimenting with it at Munich, on July 15, he inhaled a single bubble of the pure gas and died in eight days from the effects. The accident occurred through his smelling at the joints of his apparatus to discover a flaw. Others engaged in chemical operations have died from the effects of this poison in three days.

LIKE SLAVES.

Although These Negroes Know That They Are Free.

In Cumberland county, Tennessee, there are five negroes who are just as much slaves as they were before the war. The plantation on which they live is run on a small scale but on exactly the same principles as it was forty years ago. The five negroes live in the slave quarters, just as about thirty men did in the "good old times." Not one of the five ever received a cent in wages. They are perfectly aware that they are free, but they have a kind of philosophical appreciation of the fact that they were not cut out for financiers. From time to time one or more of them have wandered from the fold, only to come back half baked and half starved.

The men are quite content, and their grumbling is clearly chronic rather than the result of any special desire for a change. The squire is now a very old man, but he orders his unpaid help around with all the vim and energy of a youth and the alacrity with which he is obeyed seems to indicate to a visitor that discipline involves prompt treatment and unpleasant consequences. The plantation altogether presents a strikingly entertaining reproduction of the South before the war, and to judge from the appearance of the buildings and outhouses scarcely a dollar has been spent in repairs since the issuing of Lincoln's famous proclamation.

LOST CARNOT'S HAT.

In the Excitement of the Moment Another Man Wore It Away.

A strange incident marked the last days spent by Mme. Carnot in the palace which had been her home for seven anxious years. She desired to preserve as precious relics for her family all the articles of dress worn by her husband at the moment when he was struck down by the assassin's hand. These were carefully collected and sent to her, but the hat alone was missing, and it was supposed to have been lost in the confusion of that fatal drive. It appears, however, that among the first to offer medical help as the victim lay on his deathbed at the prefecture was Dr. Girard, the mayor of Charbonnières.

When other surgeons took charge of the case this gentleman discreetly withdrew and was looking for his hat, whereupon Colonel Chamoin handed one to him. He put it on and went home thinking it was his own, for it fitted him exactly. Not until some day later he cast his eyes on this article of headgear as it hung in his hall, examined it more closely and found it marked inside with a "C" did he recognize his mistake. The lost hat was forthwith restored and Mme. Carnot acknowledged its receipt in a letter expressing her heartfelt thanks.

The first biblical mention of brick-making is in Genesis. The chronologists place the date of this reference at B. C. 2347.

The rose window of the Tiffany chapel, exhibited at the world's fair, was designed by women. The mosaic contains nearly 10,000 pieces of glass.

Breakage of some vessels containing cod liver oil in a freight train in a French railway so oiled the track that a passenger train coming afterward came to a standstill when it reached the rails.

The following answer is vouched for by Mr. Ball, the vice president of the Liverpool Philomatic society: Examiner—Define a parable. Examinee—A parable is a heavenly story with no earthly meaning.

A fireman on the Pennsylvania railroad was up the other day for promotion as an engineer. After inquiring as to the time of his service and knowledge of the mechanism of the engine his questioner asked: "What is steam?" "Steam is smoke off from hot water," replied the man and the examiners were so surprised that they forgot what the next question on the list was.

The name applied to the bicycle in Turkestan is "tomasha." Allen and Sachtleben relate that in their bicycle tour of the world they were followed fifty miles on horseback by a Cossack, who would shout across the fields to the natives to "come and see the tomasha." Frequently he would have to entreat the travelers to "slow up," as his horse was tired. The swiftest steed of the Cossack riders could not travel with the ease and speed of the adventurers on their machines.

Bacon—Does Penman make anything out of his writings? Egbert—I don't know. I never could make anything out of them.

George, seriously—Do you think your father would object to my marrying you? Ada—I don't know; if he's anything like me he would.

Mrs. Fogg—You have been a naughty boy, and I shall have to tell your father. Johnny—H'm! Just like a woman! Can't keep a secret.

He—Pshaw! anybody can make money, but it isn't everybody who can write a poem. She, significantly—You are right. I have just read one of yours.

STRUCK THE WRONG CROWD.

A Faker's Appetite Encourager Not Wanted by Hungry Strikers.

The dapper little man in the check suit, with a bulky cane and a large yellow valise, saw a good-sized crowd on the street corner and immediately dived into the center of it. He didn't take time to stop to find out what was the reason of the crowd's gathering, but began business at once. The thick cane was given a dexterous twist that developed it into a tripod and the large yellow valise was placed on top of it.

"Gentlemen," began the dapper man. The crowd concentrated its collective eyes on him. "I have here," continued the orator, with the easy confidence of a man whose life has been passed in public speaking, "I have here for sale at 25 cents a bottle Old Mother Sohnso's Home-made Root Bitters. These bitters, gentlemen, are warranted to cure any case of loss of appetite that ever existed. Ten drops taken as a dose before meal time will make the most dyspeptic man want porterhouse steaks, fried chicken, ice cream, a whole half of a pie."

He said no more. The crowd of hungry strikers, who had been living for two weeks on half a meal every forty-eight hours, jumped on him, jammed his yellow valise, bottles and all, down over his head and chased him up the street at wondrous speed.

WHAT ARE THE "BLUES"?

Woman's Color is an Unfailing Thermometer.

[SPECIAL TO OUR LADY READERS.] A woman's thermometer is her color.

She is red with embarrassment or some deep emotion;

she is white with fright; she is supposed to be green with envy; but when she is blue it means that she is sick.

It is not the fault of the woman if she has the blues and that "want-to-be-left-alone" feeling. It is the fault of her condition which makes happiness impossible.

No woman can be happy and light-hearted when painful female complaints crush out her life.

If she is melancholy, excitable, nervous, dizzy, or troubled with sleeplessness or fainting spells, they are symptoms of serious female weakness.

A leaf out of the experience of Mrs. Anna Miller, who lives at Duhring, Pa., shows that Lydia E. Pinkham's Vegetable Compound will cure that terrible weakness and bearing-down pain in the abdomen, the dizziness in the head, the feeling of irritability, and loss of appetite. "I can highly recommend your Vegetable Compound," she writes, "for all female complaints. It's my greatest friend."

SERVICEABLE COSTUMES.

Braided Serge and Cheviot Gowns Are Popular For General Wear.

Braiding is the only sort of trimming that never goes out of fashion, but it has not for many years been so much in demand as it is this season.

Skirts, bodices, capes, sleeves, and even bonnets, are all braided. Whole bodies are covered with fine braiding, and zonaves, figaros and Eton coats are equally in demand, whether in cloth or velvet, enriched with a handsome design in braid. Given a good up to date shape in one of these, no worker need fear to invest in several skins of fine mohair braid and set to work upon suitable material. Mohair is far better for the purpose than silk braid, as the latter is defaced by very little wear, and as it is usually made over a cotton filling looks shabby as soon as the surface is rubbed.

A great deal of braiding is used on English tailor made gowns, and while it undeniably adds much to their weight it gives

1830 COSTUME.

A rich effect not otherwise obtainable in serviceable costumes. A good English serge or cheviot decorated with a fine design in mohair braid will endure all sorts of usage and weather, and after being well brushed will look none the worse for what it has undergone. Such a gown cannot be improved upon for traveling, especially since it is so easy to have a cape or coat to match it.

Velveteen is not yet appreciated in this country, as it deserves. It is much used for informal gowns in England and is seen in combination with other goods in many of the imported costumes. It is so thick and firm as to be well high impervious to wind, while water produces little effect upon it. Add to this its moderate price and its rich shades of coloring, and it is hard to see why velveteen is not more generally used for walking and skating costumes.

A sketch is given of an 1830 gown, in cloth of two shades—white and suede. The bell skirt is of suede cloth and is trimmed near the foot by a ruffle of white cloth bordered with black satin ribbon. The round corsage of suede cloth has a yoke of white cloth. The upper part of the sleeve is also made of white cloth, and the bertha of white cloth, edged with black ribbon and embroidered with maize silk, is carried along the lower edge of the yoke and across the sleeves, extending obliquely down the front of the bodice. The gigot sleeves are of suede cloth, the collar of white ribbon.

STYLISH MILLINERY.

Large Velvet Hats Rival Toques, and Flowers Vie With Feathers.

Some of the newest hats are made of felt and satin plaited together like rushwork, and producing an effective play of tint, especially when the two materials are in beige or tan color. The trimming often consists of roses on one side and feathers in the other, the prettiest of the roses being made with the outer petals in velvet and the inner ones in silk or fine muslin. The black velvet hats are now generally adopted as the reigning fashion for young unmarried women as well as for girls in their teens. The crowns are all high, but of varying shapes, some being like a flower-pot reversed, while others are more inclined to the inverted tub form.

Hats of silk beaver are made with wide rims, the upper part covered with the long silky fleece, and the under side faced

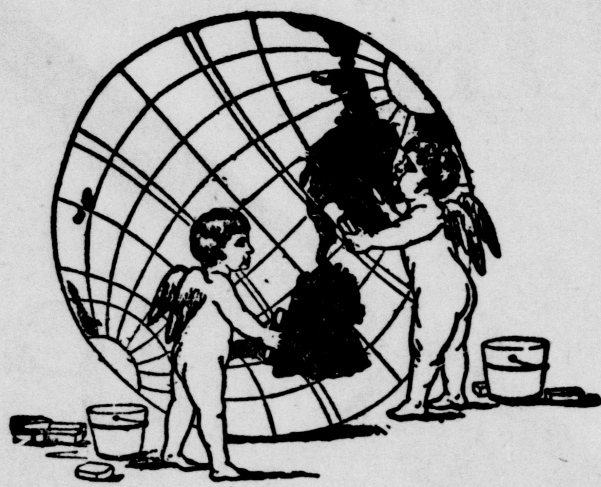

FELT HAT.

With velvet in some dark color, such as argundy, claret, plum or wallflower. The toque still maintains its almost undiminished popularity and is made in every imaginable tint and with every possible variety of trimming. The torador shape largely used for traveling wear, and for young girls who go daily to school in all kinds of weather. It is a highly useful hat and is also much more protective than the toque, forming a penthouse that juts out beyond the head all round and screens it from the rain. Glace ribbons are all the rage again in Paris, where not only the Reg Woffington and Granny bonnets are revived, but an early Victorian shape exactly similar to that worn by the queen when she came to the throne.

Colored felts are seen in great variety, though black felt trimmed with color seems to meet with most favor for general wear. A picture is given of a large hat of suede furry felt, trimmed with knots of bergine velvet, the ends of the bow being embroidered with fine beads. An amapume curls over the brim at the back, while a gold silver springs from the middle of the bow in front.
